THE CENTRAL IDEA

Summary of the Art of War (Précis de l'Art de la Guerre) Antoine-Henri Jomini 1830

Formerly the officers of the general staff were named: **marshal of lodgings**, major-general of lodgings; from there came the term of logistics [logistique], which we employ to designate those who are in charge of the functioning of an army.

“.. the **art of well-ordering** the functioning's of an army, of well combining **the order** of troops in columns, **the times** of their departure, **their itinerary**, **the means** of communication necessary **to assure** their arrival at a named point ...”

Jomini's Art of War (6 Rules)

- Statesmanship
- Strategy
- Grand tactics
- **Logistics**
- Engineering
- Small Tactics

“Logistics comprises **the means and arrangements** which **work out** the plans of strategy and tactics. **Strategy decides where to act; logistics brings the troops to this point**”

THE CENTRAL IDEA

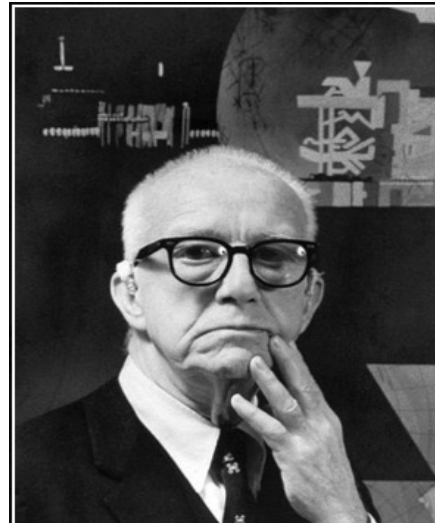

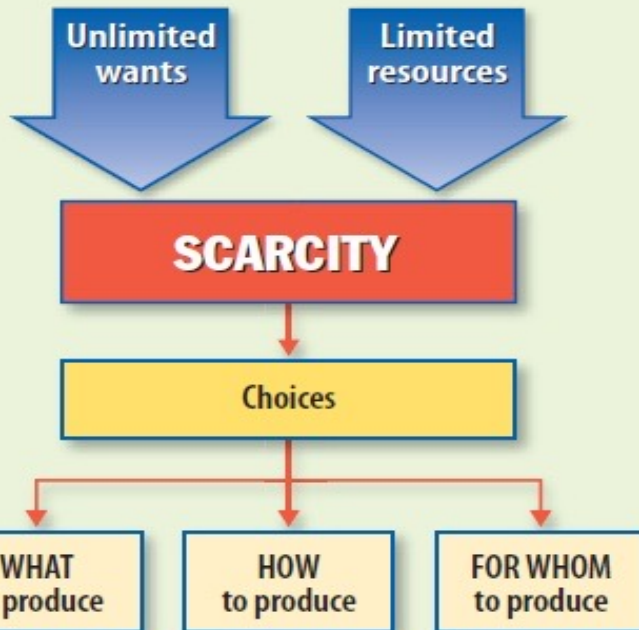

Strategy is about stretching limited resources to fit ambitious aspirations.

C. K. Prahalad

"It is not the strongest or the most intelligent who will survive but those who can best manage change."

Charles Darwin

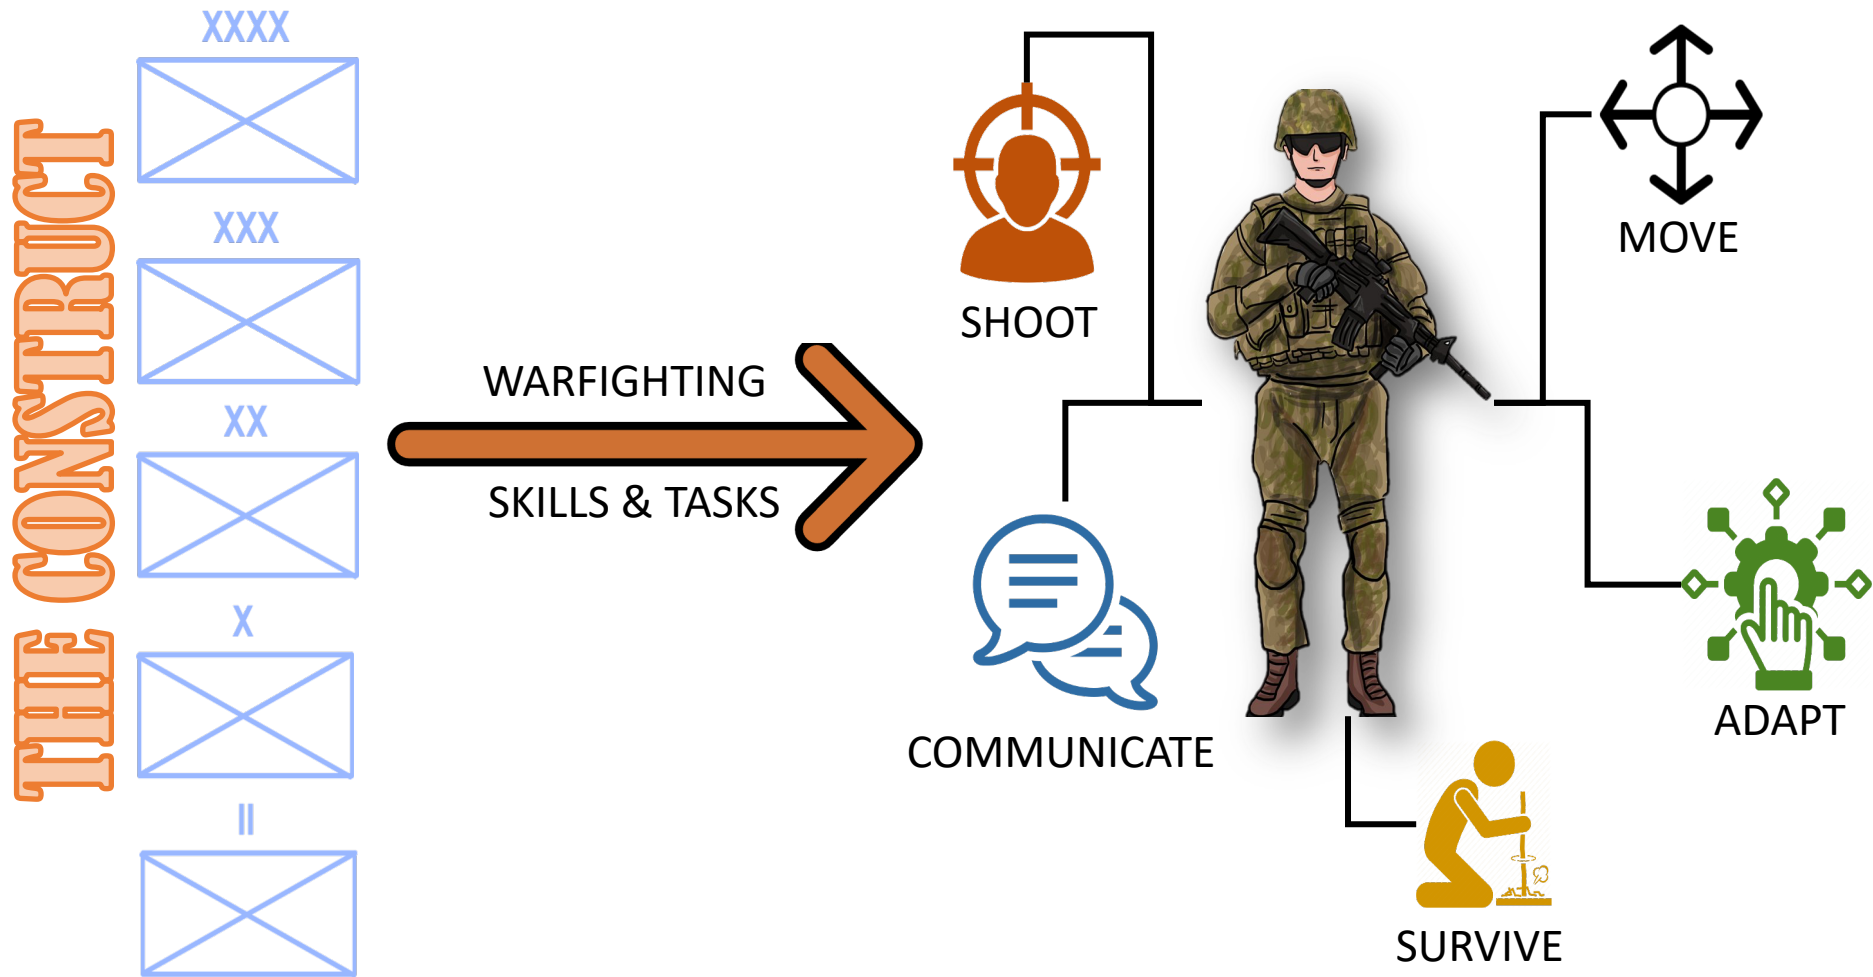

To do more and more with less and less until eventually you can do everything with nothing.

— R. Buckminster Fuller —

MECHANISM

without logistic nothing moves

PURPOSE

WHAT IS THE DWP AND WHAT DOES IT SAY?

The Defence White Paper embodies the Government's commitment to strengthen national defence, its strategic outlook for the coming decade, direction for the defence sector, and long term strategy for defending national sovereignty and territorial integrity

PEACE IN OUR TIME?

Malaysia has known 30 years of relative peace since 1989. However, this does not mean the threat of conflict has completely gone away.

At Sea

we are increasingly worried about intrusions into our maritime zone by both our neighbours and Great Powers.

At our land borders..

illegal cross border traffic and smuggling pose security risks to our citizens.

The Cyber Domain

Sometimes, they transcend the physical world, such as

SO, HOW SHOULD WE THINK ABOUT THESE PROBLEMS?

DEFENCE WHITE PAPER

"A secure, sovereign and prosperous Malaysia"

The Defence White Paper (DWP) focuses on strengthening Malaysia's position as a maritime nation with continental roots and unique role as a bridging linchpin between Asia-Pacific and Indian Ocean regions

STRATEGIC OUTLOOK

- Uncertain big power relations
- The complex Southeast Asian neighbourhood
- Alarming non-traditional security threats

CONCENTRIC AREA OF INTERESTS

The land masses of Peninsular Malaysia, Sabah and Sarawak; the territorial waters; as well as the air space above them

Malaysia Maritime Zone (MMZ), strategic waterways, airspace, and critical lines of communication

Locations beyond the extended area where Malaysia's national interests are affected

MALAYSIAN ARMED FORCES AS AN INTEGRATED, AGILE AND FOCUSED FORCE

- Jointness
- Interoperability
- Technology-based
- Mission-oriented
- Ability to operate simultaneously in two theatres

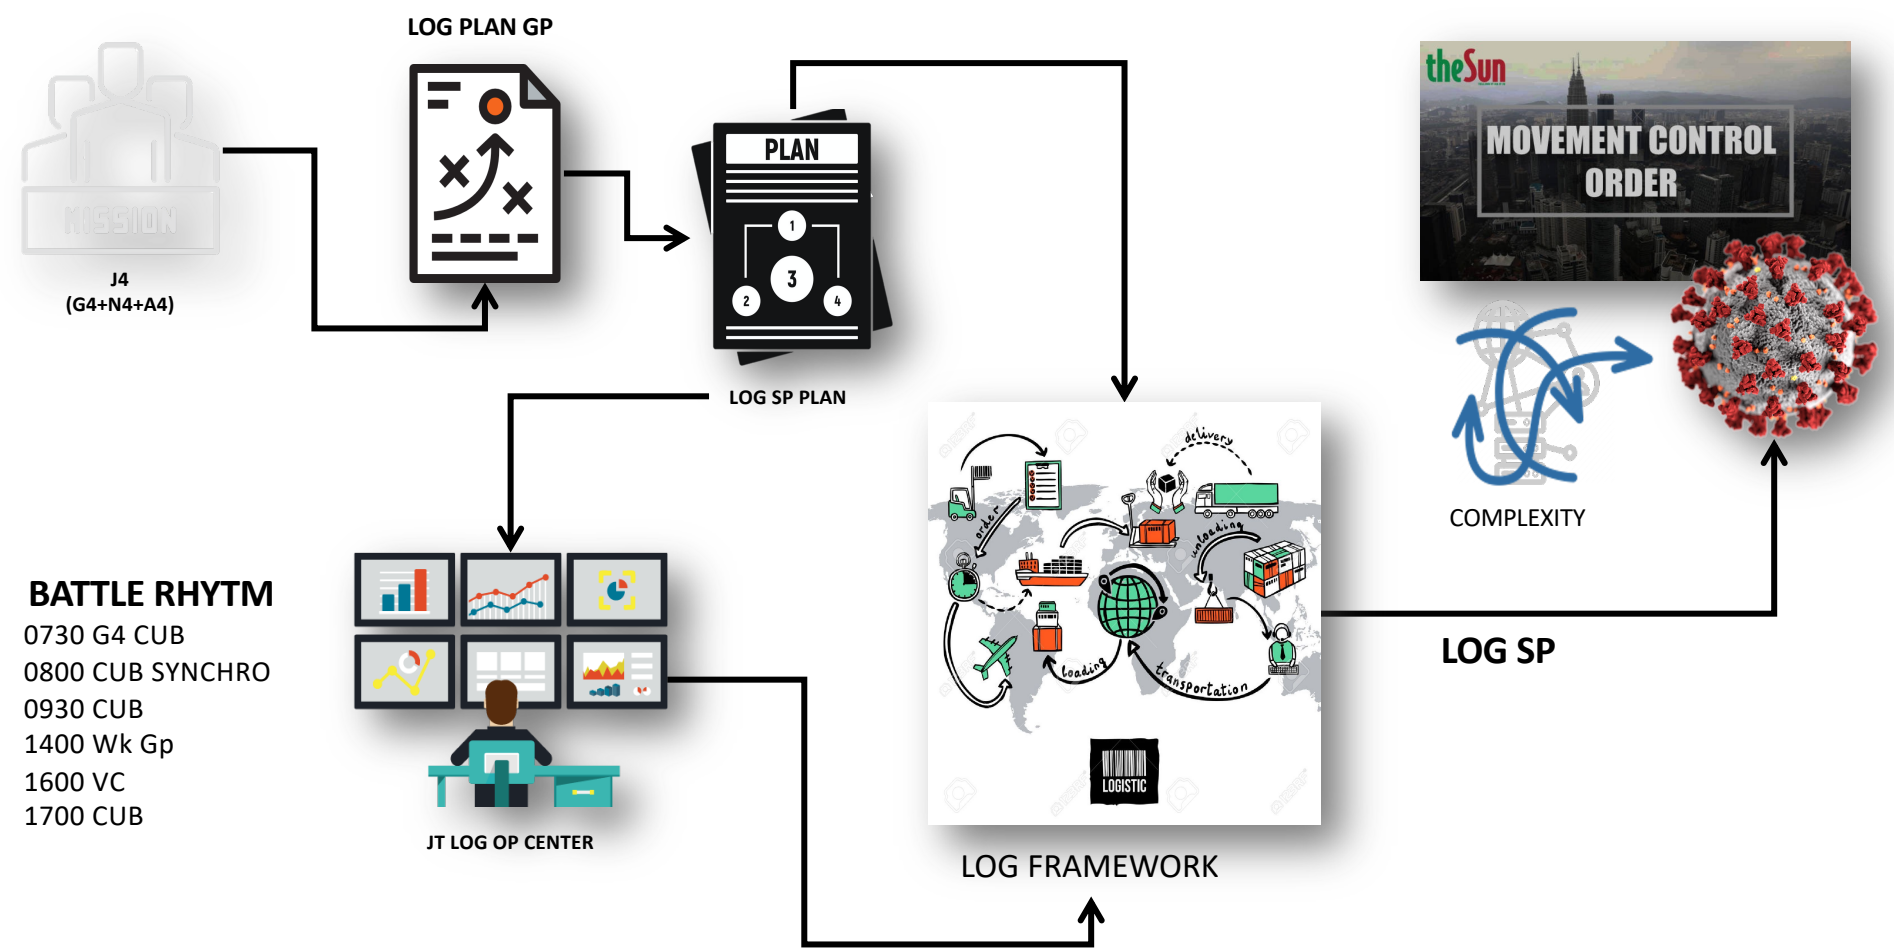

3 STRATEGIC PILLARS

- Concentric Deterrence
- Comprehensive Defence
- Credible Partnership

5 NATIONAL DEFENCE OBJECTIVES

- Develop multi domain capabilities to detect, deter and deny
- Enhance internal resilience through comprehensive defence
- Strengthen defence capacity and security through credible partnership
- Advance local defence industry by developing defence science and technology
- Instilling good governance practices in pursuing defence reform

AFTERTHOUGHTS

THE PANDEMIC JOURNEY (2020 – UFN)

**...without
logistic
nothing
moves...**
